PRODUCT SAMPLE

Scalp+Hair Tonic

Chitosan (Insect-based)

Natural refreshing and fast-absorbing hair tonic to enhance hair and scalp health.

Key Benefits

- Promotes hair growth
- Helps in reducing hair loss
- Anti-dandruff

Shake well before use. Preferably apply on damp hair after shower.

Pomade

Chitosan (Insect-based)

Natural hair-styling gel.

Perfect for those that care for their scalp health.

Key Benefits

- Keeps your hair in place all day
- Anti-dandruff
- Helps in stimulating hair growth

For best result, apply to damp hair before styling. Reapply as required.

Gel Mask

Chitosan (Insect-based)

Natural gentle exfoliator resulting in pampered and youthful skin.
See the effect after 1 month usage.

Key Benefits

- Gently exfoliate skin
- Anti-aging properties
- Rejuvenating effect

Apply 1-2x/week. Apply and spread evenly on the face, leave it for 15-20 minutes or overnight. Wash with warm water.

Face Serum

Chitosan (Insect-based)

Natural face serum maintaining youthful skin, creating barrier with healing properties.

Key Benefits

- Anti-aging properties
- Absorbs quickly
- Skin repairing effect

Apply 1-2 times a day or as required, after cleansing your face. For daytime use, follow with sunscreen.

Face Toner

Chitosan (Insect-based)

Natural refreshing toner to maintain healthy skin with anti-inflammation effect. Can be used all day.

Key Benefits

- Setting spray effect
- Calming effect on the skin
- Absorbs quickly

Apply after cleansing your face for maximum benefits, including after putting on your make up if necessary.

Deo-Spray

Chitosan (Insect-based)

Natural deodorant preventing bad odour, even with outdoor activities all day.

Key Benefits

- Effective Odour control
- Sweat Reduction
- Reduces bad bacteria

Apply 1-2 times a day or as required, preferably after shower.

Bio-Lipid Cream

Lipid (Insect-based)

Natural lipid-based cream, effectively moisturizing your skin with antimicrobial properties.

Key Benefits

- Absorbs quickly, non-sticky
- High moisturizing effect
- Eczema-safe

Apply on the skin as required, preferably after shower.

Sanitizing Spray

Chitosan (Insect-based)

All-in-one natural protective barrier for your intimate hygiene, effective for sensitive skin.

Key Benefits

- Maintains pH levels
- Helps eliminate bad odour
- Prevents infection on intimate area

Apply 1-2 times a day after washing the intimate area or as required.

Mouth Wash

Chitosan (Insect-based)

Natural mouth wash with added benefits of antimicrobial properties with refreshing sensation.

Key Benefits

- Reduces bad odour
- Reliefs mild sore throat
- Improves gum and teeth health

Pour the mouth wash into the lid and gargle for 1 minute, with your head tilted up for sore throat relief.

Ulcer Gel

Chitosan (Insect-based)

Natural fast-acting ulcer gel with wound healing properties.
Sticks to the infected area.

Key Benefits

- Creates protection barrier
- Broad-spectrum antimicrobial
- Promotes wound healing

Apply a small amount of the gel directly to the ulcer. Wait 30 minutes before drinking or eating.

MEDICAL
